LICENSE AGREEMENT ("EULA" End User License Agreement)

IMPORTANT, PLEASE READ CAREFULLY: This is a legally binding agreement between the person, company or organization which has obtained the software (hereinafter: "You") and Baumer Optronic GmbH (hereinafter: "Baumer") governing the use of the software "Baumer GAPI SDK" (hereinafter: the "Software").

Your use of the Software constitutes your agreement with the terms and conditions of this agreement (EULA).

The Software comprises the Software which can be executed on a computer, any enclosed media, and the user documentation in both its printed and electronic forms.
Baumer retains sole proprietary title to the Software, which is protected by the copyright law of Germany and international treaty provisions.
Any and all rights to the Software and its intellectual property belong to and are retained by Baumer. You are licensing not purchasing the Software.

SCOPE AND RESTRICTIONS OF LICENSE.
1. Permission is hereby granted, free of charge, to any person obtaining a copy of this Software to deal in the Software without restriction including without limitation the rights to use, copy, modify, merge, publish, distribute, sublicense, and/or sell copies of the software, and to permit persons to whom the Software is furnished to do so, subject to the following conditions:

The above copyright notice and this permission notice shall be included in all copies or substantial portions of the Software.

2. Term and termination: this agreement ("EULA") concerning the utilization of Software provided to You is valid for an indefinite term, provided that there is no infringement on other rights. Baumer reserves the right to terminate this EULA if and when you are in breach of the provisions contained therein. In this case, any and all copies of the Software and its individual components must be destroyed.

OTHER RIGHTS AND RESTRICTIONS

1. Intellectual property: any and all rights, including but not limited to, copyrights, business secrets, patents, and trade marks related to the Software and to any and all images which may be integrated in the Software, accompanying printed material, and any and all copies of the Software, are retained by Baumer as the sole and exclusive owner of the intellectual property
2. NO GUARANTEE AND WARRANTY: DESPITE ALL OF THE EFFORTS WHICH HAVE BEEN MADE TO ASSURE THE CORRECTNESS AND THE USABILITY OF THE SOFTWARE AND ITS CONFORMITY WITH THE DOCUMENTATION, BAUMER DOES NOT ASSUME ANY GUARANTEES OR WARRANTIES, EITHER EXPRESS OR IMPLICIT, INCLUDING, BUT NOT LIMITED TO, MARKET CAPABILITY OR SUITABILITY FOR SPECIFIC PURPOSES, RELATED TO THE SOFTWARE AND THE RELEVANT WRITTEN MATERIAL TO THE FULL EXTENT PERMISSIBLE IN ACCORDANCE WITH APPLICABLE LAW.
3. NO LIABILITY FOR SUBSEQUENT DAMAGE OR LOSS: UNDER NO CIRCUMSTANCES CAN BAUMER BE MADE LIABLE FOR ANY LOSS OR DAMAGE, REGARDLESS OF ITS NATURE, SUFFERED BECAUSE OF THE USE OF, OR THE INABILITY TO USE, THE SOFTWARE, EVEN IF AND WHEN BAUMER HAS BEEN NOTIFIED OF THE POSSIBLE OCCURRENCE OF SUCH LOSS OR DAMAGE. THE ABOVE PROVISION INCLUDES WITHOUT EXCEPTION LOSS OR DAMAGE FROM LOST PROFIT, OPERATIONAL INTERRUPTION, LOSS OF BUSINESS INFORMATION, OR OTHER FINANCIAL LOSS.
4. NO LIABILITY WITH RESPECT TO THIRD PARTIES: YOU HEREBY INDEMNIFY AND HOLD HARMLESS BAUMER FROM AND AGAINST ANY AND ALL THIRD-PARTY CLAIMS WHICH THIRD PARTIES MAY ASSERT AGAINST YOU PURSUANT TO THE USE OF THE SOFTWARE. MOREOVER, YOU SHALL BEAR ANY AND ALL EXPENDITURES REQUIRED FOR THE DEFENSE AGAINST SUCH CLAIMS.
5. Baumer grants the right to reverse-engineer, debug and decompile proprietary components of the Software for the only purpose of and only to the extent necessary to achieve the interoperability of the Software with another independently created computer program. The distribution of any results (e. g modified version of components of the Software) is prohibited. The information gained by reverse-engineering shall be held by you in strict confidence and shall not be used for the development, production or marketing of a computer program substantially similar in its expression or for another act which infringes copyright. BAUMER'S LIABILITY FOR ANY DAMAGES OR LOSSS OCCURRING IN CONJUNCTION WITH REVERSE-ENGINEERING OR MODIFICATION OF THE SOFTWARE OR OTHERWISE IS EXCLUDED.
6. Modifications: this agreement or EULA may not be modified in favor of one party whether by addendum or by deletion or amendment of the text in any way unless both parties agree to such modifications in writing.
7. Partial validity should any part of this EULA be declared invalid, illegal, unenforceable, or void by a recognized court, the remaining parts of this EULA shall remain valid in full. However, such partial validity shall not have any effect if and when it is detrimental to the commercial benefits of the EULA for Baumer.
8 Power of representation for execution and acceptance: by accepting this EULA, You expressly confirm that You have read and understood this EULA in full and that you accept the obligations pursuant thereto with respect to Baumer. Furthermore, you hereby declare that the person accepting this EULA is in possession of the appropriate power of representation

Open Source Software

Parts of the Baumer GAPI Software utilizes Open-Source Software.

These Open-Source Software are owned by their respective owners, Baumer does not claim any copyright for these Software.
Where required Baumer provides the source code as well as any Baumer specific changes to the source -code for the Open -Source Software . You can request the source-code from the Baumer Support (support.cameras @baumer.com) for a minimum of 3 years after the Baumer GAPI SDK was released.
Following you can find the list of utilized Open -Source Software as well as Copyright Notices and Licenses in no particular order.

GNU LESSER GENERAL PUBLIC LICENSE
Version 3, 29 June 2007

This version of the GNU Lesser General Public License incorporates
the terms and conditions of version 3 of the GNU General Public
License, supplemented by the additional permissions listed below

0. Additional Definitions.

As used herein, "this License" refers to version 3 of the GNU Lesser
General Public License, and the "GNU GPL" refers to version 3 of the GNU
General Public License.

"The Library" refers to a covered work governed by this License,
other than an Application or a Combined Work as defined below

An "Application" is any work that makes use of an interface provided

by the Library, but which is not otherwise based on the Library.
Defining a subclass of a class defined by the Library is deemed a mode
of using an interface provided by the Library.

A "Combined Work" is a work produced by combining or linking an
Application with the Library. The particular version of the Library
with which the Combined Work was made is also called the "Linked
Version".

The "Minimal Corresponding Source" for a Combined Work means the
Corresponding Source for the Combined Work, excluding any source code
for portions of the Combined Work that, considered in isolation, are
based on the Application, and not on the Linked Version.

The "Corresponding Application Code" for a Combined Work means the
object code and/or source code for the Application, including any data
and utility programs needed for reproducing the Combined Work from the
Application, but excluding the System Libraries of the Combined Work.

1. Exception to Section 3 of the GNU GPL.

You may convey a covered work under sections 3 and 4 of this License
without being bound by section 3 of the GNU GPL.

2. Conveying Modified Versions.

If you modify a copy of the Library, and, in your modifications, a
facility refers to a function or data to be supplied by an Application
that uses the facility (other than as an argument passed when the
facility is invoked), then you may convey a copy of the modified
version:

  a) under this License, provided that you make a good faith effort to
  ensure that, in the event an Application does not supply the
  function or data, the facility still operates, and performs
  whatever part of its purpose remains meaningful, or

  b) under the GNU GPL, with none of the additional permissions of
  this License applicable to that copy.

3. Object Code Incorporating Material from Library Header Files.

The object code form of an Application may incorporate material from
a header file that is part of the Library. You may convey such object
code under terms of your choice, provided that, if the incorporated
material is not limited to numerical parameters, data structure
layouts and accessors, or small macros, inline functions and templates
(ten or fewer lines in length), you do both of the following:

  a) Give prominent notice with each copy of the object code that the
  Library is used in it and that the Library and its use are
  covered by this License.

  b) Accompany the object code with a copy of the GNU GPL and this license
  document.

4. Combined Works.

You may convey a Combined Work under terms of your choice that,
taken together, effectively do not restrict modification of the
portions of the Library contained in the Combined Work and reverse
engineering for debugging such modifications, if you also do each of
the following:

  a) Give prominent notice with each copy of the Combined Work that
  the Library is used in it and that the Library and its use are
  covered by this License.

  b) Accompany the Combined Work with a copy of the GNU GPL and this license
  document.

c) For a Combined Work that displays copyright notices during execution, include the copyright notice for the Library among these notices, as well as a reference directing the user to the copies of the GNU GPL and this license document.

d) Do one of the following:

0) Convey the Minimal Corresponding Source under the terms of this License, and the Corresponding Application Code in a form suitable for, and under terms that permit, the user to recombine or relink the Application with a modified version of the Linked Version to produce a modified Combined Work, in the manner specified by section 6 of the GNU GPL for conveying Corresponding Source.

1) Use a suitable shared library mechanism for linking with the Library. A suitable mechanism is one that (a) uses at run time a copy of the Library already present on the user's computer system, and (b) will operate properly with a modified version of the Library that is interface-compatible with the Linked Version.

e) Provide Installation Information, but only if you would otherwise be required to provide such information under section 6 of the GNU GPL, and only to the extent that such information is necessary to install and execute a modified version of the Combined Work produced by recombining or relinking the Application with a modified version of the Linked Version. (If you use option 4d0, the Installation Information must accompany the Minimal Corresponding Source and Corresponding Application Code. If you use option 4d1, you must provide the Installation Information in the manner specified by section 6 of the GNU GPL for conveying Corresponding Source.)

5. Combined Libraries.

You may place library facilities that are a work based on the Library side by side in a single library together with other library facilities that are not Applications and are not covered by this License, and convey such a combined library under terms of your choice, if you do both of the following:

a) Accompany the combined library with a copy of the same work based on the Library, uncombined with any other library facilities, conveyed under the terms of this License.

b) Give prominent notice with the combined library that part of it is a work based on the Library, and explaining where to find the accompanying uncombined form of the same work.

6. Revised Versions of the GNU Lesser General Public License.

The Free Software Foundation may publish revised and/or new versions of the GNU Lesser General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Library as you received it specifies that a certain numbered version of the GNU Lesser General Public License "or any later version" applies to it, you have the option of following the terms and conditions either of that published version or of any later version published by the Free Software Foundation. If the Library as you received it does not specify a version number of the GNU Lesser General Public License, you may choose any version of the GNU Lesser General Public License ever published by the Free Software Foundation.

If the Library as you received it specifies that a proxy can decide whether future versions of the GNU Lesser General Public License shall

apply that proxy's public statement of acceptance of any version is
permanent authorization for you to choose that version for the Library
